

BUILDING COMMITTEE UPDATE

We are off and running with the Luther High School Rise Up & Build project. School is back in session with a few different sights and sounds around the campus. The new north parking lot is ready for use and the LED lights really brighten the area up. The renovation of the visitor locker rooms and bathrooms is wrapping up and the students are anxious to put them to use.

Construction of the new north classroom addition and chapel/auditorium will continue over the next 6 months with the large precast wall panels swinging into place in mid-September. Please be on the lookout for parking and entrance changes while attending events at Luther this fall. The Commons and front office entrances should be available for most events. The final sidewalk additions are being made during the next few days to provide safe and clean access to the building; just follow the signs to the open entrances.

We will be looking for volunteers from time to time as opportunities arise. The first is the planting of some trees and other landscaping this fall. This is currently scheduled for Saturday, Oct. 15 from 9:00 a.m. to noon (rain date is Oct. 22). If you are available to assist with this project, please contact Don Fruit at 608-786-2707 or email dfruit@charter.net.

May God continue to bless us as we “Rise Up and Build!”
